

AgriVOLTages

Agrivoltaics for Sustainable Agriculture and Renewable Energy Integration in VET

AgriVOLTages project aims to equip farmers and VET professionals with **skills in agrivoltaic systems** by developing innovative **training tools**, including **VR simulations** and **digital learning resources** that support climate-smart agriculture and renewable energy integration.

Project Results

Agrivoltaic **training modules** and educational materials

VR-based **simulations** for practical learning

AI-supported learning and decision **tools**

Hybrid Learning Network connecting agriculture and energy experts across Europe
